

MICROPUR FORTE TABLETS - disinfects and conserves water safely and effectively

PRODUCT CHARACTERISTICS

Active substances: Sodium dichloroisocyanurate (NaDcc) 103 mg/g, Silver chloride 2,8 mg/g
All ingredients used are permissible for use in drinking water

Effect: Eliminates bacteria* and viruses* in 30 minutes
Amoebas and giardia* in 120 minutes.
Conserves drinking water for up to 6 months

Dosage: See reverse

Materials: Can be used in plastic or glass. Check metals before use

Notes on safety: In case of contact with eyes, rinse immediately with water. Not necessary to declare as a dangerous substance when travelling

Storage: Store in original packaging in a dry place under 25°C

Shelf-life: 5 years

* see test results on backside

FACTS

- Micropur Forte disinfects clear water quickly and safely keeping it germ-free for up to 6 months.
- Due to the strong oxidizing power of chlorine, most protozoa and fungi are eliminated as well as bacteria and viruses.
- Micropur Forte can be used wherever microbiologically unsafe water requires disinfection (e.g. drinking, cooking washing).
- It is also ideal for conserving water in water tanks, water baths, air conditioning systems, heating systems, humidifiers, wells, incubators and more.
- For clear, not for cloudy water as suspended matter can weaken the effect of chlorine and silver ions. Use a Katadyn Microfilter for cloudy water.

PRODUCT CHARACTERISTICS > BENEFITS

- Contains chlorine > disinfects water quickly and safely
- Contains silver ions > preserves water for up to 6 months
- Simple use > high degree of user safety
- Small and handy packaging > will fit everywhere

SHORT PROFILE

Fast and safe water disinfection and conservation. Ideal for treating water while travelling.

MICROPUR FORTE TABLETS - disinfects and conserves water safely and effectively

PRODUCT FORM

Art. No.	Product form	Capacity	Dosage
Micropur Tablets:			
8014258	Micropur Forte MF 1T (D/E/F/NL/DK)	100 tablets	1 tablets for 1 l, treats 100 l
8013662	Micropur Forte MF 1T (ES/I/S/N/FIN)	100 tablets	1 tablets for 1 l, treats 100 l
8017906	Micropur Forte MF 1T (PL/CZ/HU/RUS)	100 tablets	1 tablets for 1 l, treats 100 l

USE (only for clear water)

Micropur Tablets

Use one Micropur Forte tablet for one litre of clear water; wait 10 minutes until the tablet has dissolved; shake well; wait another 20 minutes before using the water.

Further tips:

- If the water is very cold or you are concerned about the possible presence of Giardia cysts in the water, allow two hours wait time.
- The max. amount of silver in drinking water is 0.1 mg/l and is not exceeded once Micropur Forte has taken full effect.
- Use Mircopur Antichlorine to neutralise the (light) taste of chlorine.

TESTS (Effectiveness of chlorine)

Mark D. Sobsey, Taksahi Fuji, Patricia A. Shields, 1988.

Pathogenes examined: Hepatitis A HM175, Coxsackievirus B5, Coliphages ATCC 13706-B1

Rice et al., 1982. Pathogenes examined: Giardia lamblia cysts, Giardia muris cysts
